<b>Is the job funded through the EU Research Framework Programme?</b>	Not funded by a EU programme
<b>Is the Job related to staff position within a Research Infrastructure?</b>	No

## Offer Description

At the Faculty of Sciences of the University of Lisbon (FCUL), a call is open for the attribution of 1 (one) research grant for master holder enrolled in a non-degree course, financed by MAR2030, within PORTUGAL 2030, through FEAMPA funds, under the scope of the Project " mRESTART - Desenvolvimento de soluções baseadas na natureza com recurso a bactérias bioestimulantes marinhas para melhoria da eficiência dos processos de restauro de ecossistemas de sapal" (MAR-016.9.1-FEAMPA-00006), according to the following conditions:

### Work plan:

- Participation in field trips and sampling of estuarine flora;
- Isolation of growth-promoting microorganisms;
- Maintaining cultures of microorganisms and higher plants;
- Preparation of experimental manipulations with higher plants subjected to stress conditions;
- Physiological and biochemical analysis of target organisms;
- Statistical processing of databases using statistical software;
- Writing reports and scientific papers in technical English;

### Fellowship duration:

The grant is expected to start in January 2025. The contract, with a duration of 6 (six) months, on an exclusive basis, with the possibility of renewal for a maximum of 12 months.

### Form of presentation of applications:

Applications may be sent by e-mail, to the address [candidaturas@ciencias.ulisboa.pt](mailto:candidaturas@ciencias.ulisboa.pt), with the reference " Ref.ª BI-MESTRE-ICNCG-uRESTART", under penalty of not being considered for the competition.

Applications must be accompanied, compulsorily and under penalty of exclusion, by the following documents. No document, which must be submitted at the time of application, may be submitted after the deadline for submission:

- Personal data form and declaration of consent for communication of results via e-mail;
- Declaration under oath;
- Proof of enrolment, in the academic year 2024/2025, in a non-awarding academic degree course integrated in the educational project of a higher education institution and developed in association or cooperation with one or several R&D Units;
- Detailed and updated Curriculum Vitae;
- Photocopy of the qualification certificate(s) of the academic degree(s) required – Molecular Biology or related areas Master degree;
- If the academic degree, required in the present announcement as an admission requirement for the type of scholarship in question, was obtained abroad, you must submit one of the

following documents: (See also the NOTES below)

- Document proving the granting, by a Portuguese Institution, of the recognition or equivalence or registration of the academic degree;
- Document proving that you have already applied for the recognition of the degree, which application must be submitted by the deadline for receipt of applications, inclusive.

### Notes:

- 1) The presentation of the proof of obtaining the recognition or equivalence or registration of the academic degree is a mandatory condition for signing the contract;
- 2) For academic degrees obtained in foreign countries, which have not yet obtained either recognition or equivalence or registration of the degree, it is necessary to recognise it, under the terms provided for in Decree Law no. 66/2018, of 16 August, combined with Ordinance no. 33/2019, of 25 January, as currently amended.

## Where to apply

E-mail

candidaturas@ciencias.ulisboa.pt

## Requirements

Research Field

Biological sciences » Biology

Education Level

Master Degree or equivalent

### Skills/Qualifications

#### Candidates must fulfil the following mandatory requirements:

- Master's degree in Molecular Biology or related areas;
- Enrollment, in a non-awarding academic degree course integrated in the educational project of a higher education institution and developed in association or cooperation with one or several R&D Units or, alternatively (applicable only in the months of July or August), a statement under oath that meets the requirements to do the same;
- Experience in the molecular physiology of stress in photosynthetic organisms

If the academic degree required by the present announcement as an admission requirement for the type of grant in question was obtained abroad, the requirements mentioned in point "Form of presentation of applications" of this announcement regarding the qualification certificates shall be taken into consideration.

### Specific Requirements

#### Preference will be given to candidates with the following requirements:

- Experience in developing experimental designs in plant physiology;
- Experience in analysing fatty acid profiles and lipidomics in higher plants;
- Experience in analysing gene expression in higher plants;
- Experience in plant pathogenic microorganisms;
- Experience in organizing teamwork;
- Experience with statistical software;

- Experience in writing scientific reports and articles;

## Additional Information

### Benefits

#### Monthly allowance and social security:

- The fellowship amount corresponds to € 1 259,64 (one thousand, two hundred and fifty nine euros and sixty four cents), according to FCT Regulation for Research Fellowships, published by Regulation no. 950/2019 in the Diário da República, 2nd series, no. 241, of 16th of December, amended by Regulation No. 643/2021, published in the Diário da República, 2nd Series, No. 135, of 14 July, and available in the link: [https://www.fct.pt/wp-content/uploads/2024/02/Tabela-de-Valores-SMM\\_atualizacao-2024.pdf](https://www.fct.pt/wp-content/uploads/2024/02/Tabela-de-Valores-SMM_atualizacao-2024.pdf)

It will be paid monthly by bank transfer;

- The candidate to be hired may exercise his right to social insurance by joining the voluntary social insurance scheme, under the terms of the Statute of the Research Fellowship. The financing entities assume the costs resulting from the contributions provided for this Social Insurance, according to the Statute of the Research Fellowship.

### Selection process

#### Selection criteria:

The applicable selection methods will be curricular evaluation.

The selection methods are eliminatory, and candidates who obtain a score of less than 9.5 in one of the selection methods or stages of the procedure will be excluded, and the next method or stage will not be applied to these candidates.

#### Selection committee:

Bernardo Afonso de Aranha Alhandra Duarte (President), Andreia Cristina Silva Viegas Mata Figueiredo (1st Effective Member), Vanessa Filipa Simão Fonseca (2nd Effective Member), Ana

Rita Barreiro Alves de Matos (1st Alternate Member) and Anabela Rosa Bernardes dos Santos da Silva (2nd Alternate Member).

### Form of publication/notification of results:

All candidates will be notified of the final result of the evaluation, sent to the email address used for sending the respective application, or by post, to the address given in the Personal Data Form, through a sorted list, in descending order of the final evaluation obtained.

### Additional comments

### Legislation framework:

- Research Fellowship Holder Statute - Law no. 40/2004, of August 18, amended by Decree-Law No. 202/2012, of August 27, by Decree-Law No. 233/2012, of October 29, by Law No. 12/2013, of January 29, by Decree-Law No. 89/2013, of July 9, and by Decree-Law No. 123/2019, of August 28;
- FCT Regulation for Research Fellowships - Regulation no. 950/2019 in the Diário da República, 2nd Series, no. 241, of 16 of December, amended by Regulation No. 643/2021, published in the Diário da República, 2nd Series, No. 135, of 14 July.
