Offer Description

At the Faculty of Sciences of the University of Lisbon (FCUL), a call is open for the attribution of 1 (one) research grant for a PhD student, financed by Programme Mar2030, under the scope of the Project "CoastNet 2030: Monitoring for the Management of Marine Ecosystems" (MAR-016.9.1-FEAMPA-00010), according to the following conditions:

Work plan:

- Be responsible for the management and maintenance activities of the CoastNet's in-situ monitoring network;
- Implement and update the coastal monitoring network;
- Follow-up of the expansion and enhancement of the monitoring network;
- Perform calibrations and analyses of time-series collected by CoastNet's the in-situ sondes;
- Be responsible for the field campaigns to collect radiometric data;
- Contribute to the development of new satellite products;
- Contribute to the upgrade of CoastNet's geoportal;
- Contribute to the preparation of reports and scientific articles.

Fellowship duration:

The grant is expected to start on march 2025. The contract, with a duration of 12 (twelve) months, on an exclusive basis, with the possibility of renewal every 6 (six) months until the end of the project.

Form of presentation of applications:

Applications may be sent by e-mail, to the address candidaturas@ciencias.ulisboa.pt, with the reference " Ref.^a BI-DOUTORANDO-COASTNET-2", under penalty of not being considered for the competition.

Applications must be accompanied, compulsorily and under penalty of exclusion, by the following documents. No document, which must be submitted at the time of application, may be submitted after the deadline for submission:

- Personal data form and declaration of consent for communication of results via e-mail;
- Declaration under oath;
- Proof of enrolment in the PhD Programme in Marine Sciences, in the academic year 2024/2025
- Detailed and updated Curriculum Vitae;
- Photocopy of the qualification certificate(s) of the academic degree(s) required - Master's in Marine Sciences or related fields;
- If the academic degree, required in the present announcement as an admission requirement for the type of scholarship in question, was obtained abroad, you must submit one of the

following documents: (See also the NOTES below)

- Document proving the granting, by a Portuguese Institution, of the recognition or equivalence or registration of the academic degree;
- Document proving that you have already applied for the recognition of the degree, which application must be submitted by the deadline for receipt of applications, inclusive.

Notes:

1) The presentation of the proof of obtaining the recognition or equivalence or registration of the academic degree is a mandatory condition for signing the contract;

2) For academic degrees obtained in foreign countries, which have not yet obtained either recognition or equivalence or registration of the degree, it is necessary to recognise it, under the terms provided for in Decree Law no. 66/2018, of 16 August, combined with Ordinance no. 33/2019, of 25 January, as currently amended.

Education Level

Master Degree or equivalent

Skills/Qualifications

Candidates must fulfil the following mandatory requirements:

- Master's in Marine Sciences or related fields;
- Enrolment, for the academic year 2024/2025, in the PhD Programme in Marine Sciences;
- Work experience in the management and maintenance of in-situ continuous monitoring systems in estuarine environments;
- Work experience in analysis of time-series;
- Work experience in satellite imagery analysis;
- Fluent in Portuguese.

If the academic degree required by the present announcement as an admission requirement for the type of grant in question was obtained abroad, the requirements mentioned in point "Form of presentation of applications" of this announcement regarding the qualification certificates shall be taken into consideration.

Specific Requirements

Preference will be given to candidates with the following requirements:

- Work experience in oceanographic sampling campaigns in the Portuguese coast;
- Knowledge on phytoplankton ecology;
- Knowledge in satellite processing routines for the study of ocean colour;
- Basic proficiency in MATLAB programming languages;
- Experience working in teams within multidisciplinary projects;

- Published scientific articles in the field of marine sciences.

Additional Information

Benefits

Monthly allowance and social security:

- The fellowship amount corresponds to € 1259,64 (one thousand two hundred fifty-nine euros and sixty-four cents), according to FCT Regulation for Research Fellowships, published by Regulation no. 950/2019 in the Diário da República, 2nd series, no. 241, of 16th of December, amended by Regulation No. 643/2021, published in the Diário da República, 2nd Series, No. 135, of 14 July, and available in the link:

https://www.fct.pt/wp-content/uploads/2024/02/Tabela-de-Valores-SMM_atu...

It will be paid monthly by bank transfer;

- The candidate to be hired may exercise his right to social insurance by joining the voluntary social insurance scheme, under the terms of the Statute of the Research Fellowship. The financing entities assume the costs resulting from the contributions provided for this Social Insurance, according to the Statute of the Research Fellowship.

Selection process

Selection criteria:

The applicable selection methods will be curricular evaluation and, eventually, a selection interview.

If the jury chooses to conduct a selection interview, it will be conducted with the three (3) candidates with the best classification in the curricular assessment.

In the event that the selection interview is held, the final evaluation will be obtained considering the following weightings: 50% for the curricular evaluation and 50% for the selection interview.

The selection methods are eliminatory, and candidates who obtain a score of less than 12 in one of the selection methods or stages of the procedure will be excluded, and the next method or stage

will not be applied to these candidates. Under these specific circumstances, no candidate may be selected.

Selection committee (full name):

Ana Cristina Florindo de Brito (President), José Lino Costa (1st Effective Member), Paula Maria Chainho de Oliveira (2nd Effective Member), Bernardo Silva Ruivo Quintella (1st Alternate Member) and Vanda Costa Brotas Gonçalves (2nd Alternate Member).

Form of publication/notification of results:

All candidates will be notified of the final result of the evaluation, sent to the email address used for sending the respective application, or by post, to the address given in the Personal Data Form, through a sorted list, in descending order of the final evaluation obtained.

Additional comments

Legislation framework:

- Research Fellowship Holder Statute - Law no. 40/2004, of August 18, amended by Decree-Law No. 202/2012, of August 27, by Decree-Law No. 233/2012, of October 29, by Law No. 12/2013, of January 29, by Decree-Law No. 89/2013, of July 9, and by Decree-Law No. 123/2019, of August 28;
- FCT Regulation for Research Fellowships - Regulation no. 950/2019 in the Diário da República, 2nd Series, no. 241, of 16 of December, amended by Regulation No. 643/2021, published in the Diário da República, 2nd Series, No. 135, of 14 July.
