## Offer Description

At the Faculty of Sciences of the University of Lisbon (Ciências ULisboa), a call is open for the attribution of 1 (one) research grant for PhD student, financed by PRR – Plano de Recuperação e Resiliência, through Investimento RE-C05-i03 – Agenda de investigação e inovação para a sustentabilidade da agricultura, alimentação e agroindústria - Projetos de Investigação e Inovação em Parceria - Adaptação às alterações climáticas, under the scope of the Project "AdaptForGrazing" operation LA4.6 (Referência do projeto PRR-C05-i03-I-000035), according to the following conditions:

### Work plan:

The PhD student will contribute to tasks allocated to the FCUL partner of the project AdaptForGrazing, in particular PRR-C05-i03-I-000035 4.6, regarding:

- (T5.1/5.2/5.3) - Monitoring of ecosystem services and their trade-offs: assessing the delivery of regulating, provisioning and cultural ecosystem services, in different measures of adaptation to CCs.
- (T6.1/6.2) - Statistical modelling of adaptation measures to CCs - statistically model selected adaptation measures for each type of vulnerability identified.

### Fellowship duration:

The grant is expected to start on 01 June 2025. The contract, with a duration of three (3) months, on an exclusive basis, with the possibility of renewal until the project end, date scheduled for 30-09-2025.

### Form of presentation of applications:

Applications may be sent by e-mail, to the address [candidaturas@ciencias.ulisboa.pt](mailto:candidaturas@ciencias.ulisboa.pt), with the reference " Ref.<sup>a</sup> BI-DOUTORANDO-ADAPTFORGRAZING-3", under penalty of not being considered for the competition.

Applications must be accompanied, compulsorily and under penalty of exclusion, by the following documents. No document, which must be submitted at the time of application, may be submitted after the deadline for submission:

- Personal data form and declaration of consent for communication of results via e-mail;
- Declaration under oath;
- Proof of enrollment in the PhD course in Biology in the 2024/2025 academic year.;
- Detailed and updated Curriculum Vitae;
- Photocopy of the qualification certificate(s) of the academic degree(s) required - se applicable;

- If the academic degree, required in the present announcement as an admission requirement for the type of scholarship in question, was obtained abroad, you must submit one of the following documents: (See also the NOTES below)
  - Document proving the granting, by a Portuguese Institution, of the recognition or equivalence or registration of the academic degree;
  - Document proving that you have already applied for the recognition of the degree, which application must be submitted by the deadline for receipt of applications, inclusive.

### Notes:

1) The presentation of the proof of obtaining the recognition or equivalence or registration of the academic degree is a mandatory condition for signing the contract;

2) For academic degrees obtained in foreign countries, which have not yet obtained either recognition or equivalence or registration of the degree, it is necessary to recognise it, under the terms provided for in Decree Law no. 66/2018, of 16 August, combined with Ordinance no. 33/2019, of 25 January, as currently amended.

## Where to apply

E-mail

candidaturas@ciencias.ulisboa.pt

## Requirements

Research Field

Biological sciences » Biology

Education Level

Master Degree or equivalent

### Skills/Qualifications

**Candidates must fulfil the following mandatory requirements:**

- Enrolment in 2024/2025, in a Biology PhD course.

If the academic degree required by the present announcement as an admission requirement for the type of grant in question was obtained abroad, the requirements mentioned in point “Form of presentation of applications” of this announcement regarding the qualification certificates shall be taken into consideration.

### Specific Requirements

**Preference will be given to candidates with the following requirements:**

- Degree in Biology or similar areas;
- Master degree in Biology, Ecology or similar areas;
- Experience in biodiversity assessments, namely for vegetation;
- Experience in data analysis and treatment, namely spatial data.
