1 (one) Post-Doctoral Research Fellowship (BIPD)

1 Postdoctoral Research Fellowship(s) (BIPD) is(are) open at the **FCiências.ID – Associação para a Investigação e Desenvolvimento de Ciências**, for the project/R&D institution “INTERSELF - The Interacting Self - from Self-consciousness to Social interactions in Humans and Artificial Agents”, PTDC/FER-FIL/4802/2020, financed by national funds by FCT / MCTES (PIDDAC) under the programme Programa em Todos os Domínios Científicos, under the following conditions:

1. **Scientific Area:** Psychology or Cognitive Neuroscience or a closely related area.
2. **Requirements for admission:** Portuguese nationals, foreign and stateless persons may submit applications to this selection procedure, provided they hold a doctoral degree in Psychology or Cognitive Neuroscience or a closely related area. Essential skills: (a) Knowledge of a range of research techniques useful to philosophy of embodied cognition and human social neuroscience; (b) Knowledge of the scientific literature relevant to the domain of philosophy of embodied cognition and human social neuroscience; (c) Extensive experience in research in the area of philosophy of embodied cognition and human cognitive neuroscience; (d) Proven ability to analyse and write up data; (e) Proven ability to implement and develop psychophysiological, behavioural and/or computational methods; (f) Effective written and verbal communication skills; (g) Experience of using MatLab or Python or similar programming languages.
The BIPD fellowship can only be granted if the following requirements are cumulatively met:
a) The PhD degree has been obtained in the three years prior to the date of submission of the application for the fellowship;
b) Post-doctoral research is carried out in a different host entity from the one where the research work that led to the attribution of PhD degree was carried out;
c) Research activities do not require post-doctoral experience;
d) Research activities have a development and execution period equal to or less than three years;
e) The fellowship holder does not exceed, with the signing of the fellowship contract in question, including possible renewals, an accumulated period of three years in this type of fellowship, consecutive or interpolated.
3. **Additional optional skills and qualifications:** (a) Ability to present complex information effectively to a range of audiences; (b) Experience of contributing effectively to the work of a team; (c) Experience of supervising undergraduate and/or MSc students; (d) Knowledge of recent research within the domain of human social interaction; (e) Experience with using virtual reality and/or robots to create social scenarios; (f) Experience with designing novel cognitive tasks; (g) Experience of functional near infrared spectroscopy (fNIRS) data collection and analysis (SPM or other software); (h) Experience with kinematic and /or psychophysiological data; (i) Experience of organising meetings or other academic events.
4. **Contracting requirements:** Presentation of the academic qualifications and/or diplomas.
5. **Work plan:** The post holder will be expected to carry out research in the area of philosophy of embodied cognition and human social neuroscience. The post-holder will be responsible for the design and running of experimental studies of human social behaviour using virtual reality (VR), robots and functional near infrared spectroscopy (fNIRS). This includes experiment setup, participant recruitment, data recording, analysis, and writing
