

João Duarte was awarded in 2017 the Arne Richter Award for Outstanding Early Career Scientists for his pioneering research on subduction initiation...

The **National Geographic** recently published a story about his work: **A tectonic plate may have peeled apart—and that could shrink the Atlantic Ocean...**

Joao Duarte

**Delamination of oceanic lithosphere in SW Iberia:
a key for subduction initiation?**

**Thursday, the 16th @ 2PM – Biblioteca IDL
FCUL – C1**
