

Workshop on
BioMedical Engineering

WBME 14th

Lectures Day

October 8, 2022

Workshops

October 10-14, 2022

O que hoje não sabemos, amanhã saberemos.

Lectures:

Robotic Surgery

Ana Tavares Sobreiro

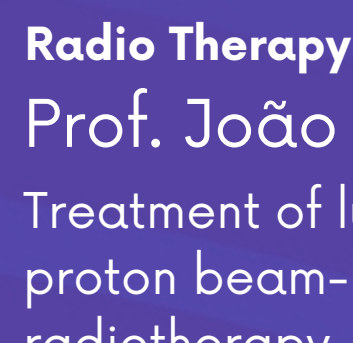

Engineering the Extraordinary:
A new era in robotic-assisted
surgery

Veterinary Medicine

Prof. Ricardo Faustino

Translating Human to
Veterinary Medicine

Radio Therapy

Prof. João Seco

Treatment of lung cancer with
proton beam-based
radiotherapy

Nanotechnology and Tissue Engineering

Prof. Alexander Seifalian

Tissue engineering and human
organs for transplantation

Workshops:

Workshop + Visit

Prof. Nuno Araújo - CFTC

Computer Simulation in
Biomedicine and Biophysics

Prof. Cláudia Quaresma

3D Printing for Rehab

Prof. Vânia Silvério

Building Microfluidic Devices for
Organ-on-chip Applications

Webinar

Prof. Guillaume Durandau

MyoSuite: Myochallenge

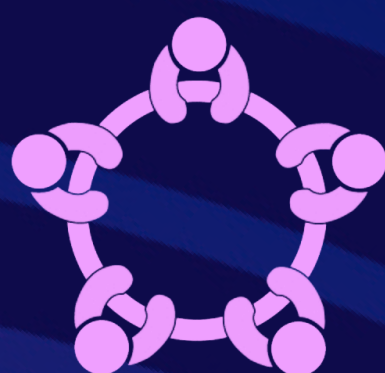

PLUX

Dra. Madalena Proença

Katrin Mrotzeck

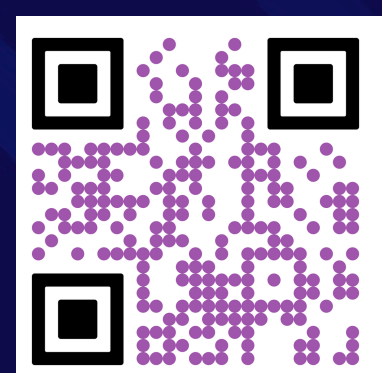

Exploring biosignals using
BITalino

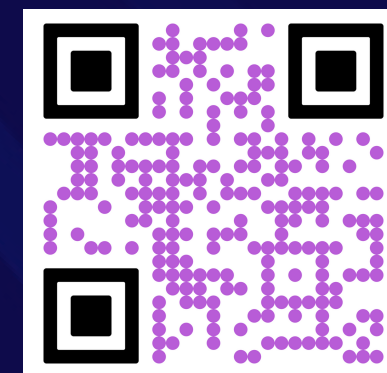

Roundtable/Debate

Entrepreneurship and Health

Moderator Ana Prata
