# SEMINÁRIO DE ESTATÍSTICA

**Dia 7 de março (terça-feira), às 14H30, sala 6.4.31**

## **Do we need new academic skills in healthcare innovation, and how should we teach them?**

**Finn Valentin**

**Professor at Copenhagen Business School (CBS)  
Director of the EIT-labelled MSc Innovation in Health Care**

Abstract:

In preparation of launching the new MSc in Innovation in Health Care we surveyed what new skills and approaches to innovation are requested by key stakeholder (companies, hospitals etc). The IHC program was designed largely as an answer to these needs. My talk reports on the needs identified in this survey and how we translated them into the skills we should teach in an MSc degree, and the way we should teach them.
