# **" Microalgae: a sea of opportunities on the circular economy"**

Luisa Gouveia – Investigadora Principal- Unidade de Bioenergia  
LNEG – Laboratório Nacional de Energia e Geologia

The potencial use of the microalgae is (almost) unlimited.

The presentation will focus of the use of microalgae for food, feed, fertilizers, fuels, wastewater treatment, CO<sub>2</sub> mitigation, biorefineries, sustainability and circular economy, all related with microalgae.
