

COME AND JOIN OUR TEAM!

APPLY NOW!

There is no better time to join our rapidly growing workforce at First Derivatives Plc. In line with our massive expansion plans we are seeking technically minded individuals who are ready for a challenge!

We have lots of exciting opportunities currently available with a guarantee that our Junior Consultants will be placed on international client projects within the first 3 months of joining our organization. Our Junior Consultants are afforded the opportunity to work with some of the world's most reputable Tier 1 Investment Banks across the globe, with a graduate package worth up to £50,000.

First Derivatives (FD) is a leading provider of products and consulting services to some of the world's largest finance, technology and energy institutions. FD is the developer of the world-leading database technology kdb+, allowing us to become the world's fastest growing software company. We are known as Ireland's largest graduate recruiters, with three award-winning training programmes and an intake of 250+ grads per year. We are experts in Finance/Technology and want to teach you how to be also.

FD don't hire any average graduate; we seek students with a difference. Are you an ambitious, intelligent and motivated individual, passionate about Finance/IT and keen to kick-start an exciting career into the Capital Markets industry? First Derivatives Plc is the place for you.

If excellent remuneration (including accommodation, flights and expenses), rapid career progression and an impressive benefits programme sounds like the package you want, don't waste time, [**APPLY TODAY!**](#)
