

COH,TEC

TURNING SCIENCE INTO BUSINESS

4-month free training program in technology commercialization, aimed to support researchers assessing the commercial impact of the science and technology they have developed

For researchers that:

- work at Portuguese R&D institutions
- are developing groundbreaking science and technology
- believe that their research can have a commercial application
- want to acquire technology commercialization skills

Program components

- teams of researchers, management students and mentors
- guided by an internationally proven technology commercialization methodology
- class sessions, thematic seminars and group meetings

Schedule & Location

- from 14 March to 11 July 2017
- one afternoon per week
- Tuesdays at Porto (Porto Business School)
- Thursdays at Lisbon (Nova School of Business and Economics)
